

Multi-temp

UV & multi-filter
system

Dual-use for
home & car

100°C boiling

Portable &
travel-friendly

—Portable— —Hot Water— —Dispenser—

Perfect for Home, Car, Camping & Office Use

Composite filter + RO + UV

Multi-layer filtration system removes rust, odors, chlorine, heavy metals, and bacteria for safer, better-tasting water.

Dual-Use for Home & Vehicle

Compact and lightweight design—ideal for households, rentals, RVs, trucks, offices, and outdoor camping.

Instant Heating + Long-Lasting Insulation

Enjoy hot water on demand with sustained heat retention.

True Boiling at 100°C

Accurate temperature control for fully boiled water.

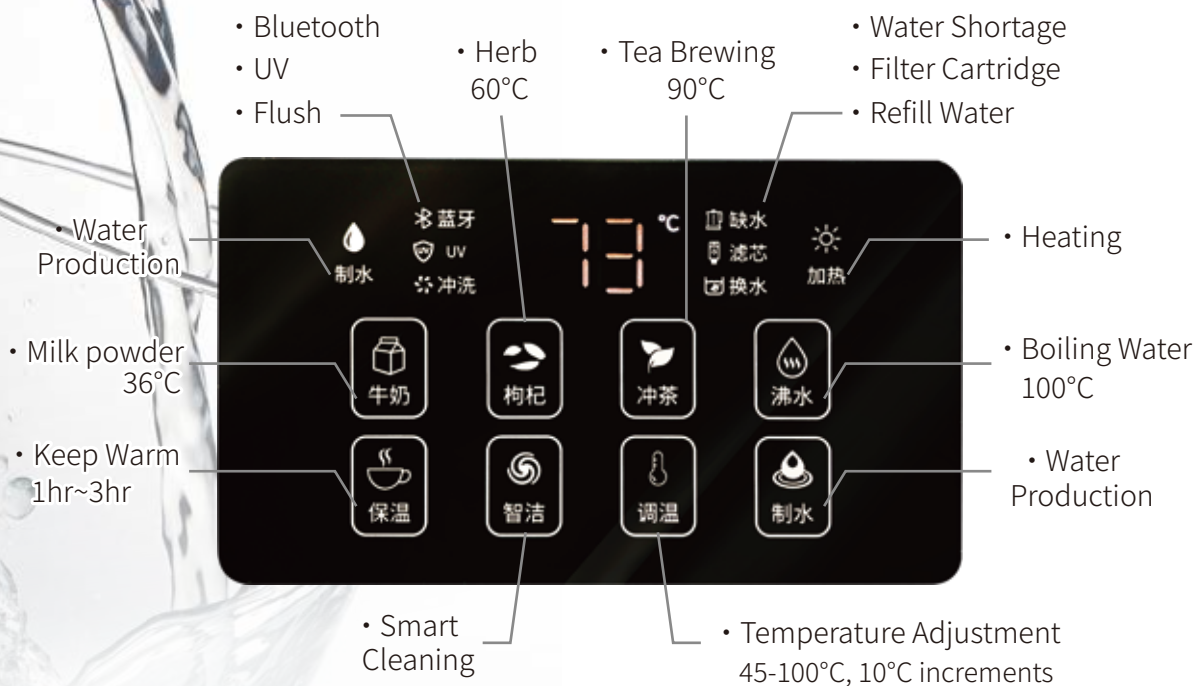

12-Level Temperature Adjustment

Flexible heating modes to meet your daily needs—from gentle warmth to rapid boiling.

No Installation Required

Plug-and-play mobility.
Ready to use anytime, anywhere.

Simple Touch, Total Control

Thoughtful Construction

Outer Case

Fully enclosed box with sliding door for neat placement and easy access.

Handle

Hidden single-arm handle for sleek look and convenient mobility.

Water Kettle

Anti-splash spout and leak-proof lid for safe, clean pouring.

Water Tank

Sealed lid prevents spills and contamination. Built-in handle for easy carrying.

Water Tank	4L (raw water)
Filtration	Dual Composite – PP+C & RO+C membranes
Kettle Volume	0.8L
Heating Power	800W
Rated Power	848W
Capacity	75 GPD
Size	D385 x W260 x H325 mm
Weight	6.5kg
Voltage	100VAC~230VAC
