PT1017R / PT1035R Automatic water Softener

- Intelligent control system provide worry-free service
- Salt Valve and overflow design
- Big window easy monitor
- Auto flush when vacation
- Keep resin and water in fresh condition
- Ergonomic groove easy for machine moving

Big Window easy monitor

LCD friendly Display
Trustable Sensor

Regeneration cycle Adjustable
Bypass with space-saving turbine
flowmeter

- Electronic/manual dual-purpose control head
- Four regeneration modes are more suitable for demand applications
- Soft water hardness adjusts mixing valve, water hardness adjustable
- Simple and friendly LCD display panel
- Accurate and reliable electronic sensors
- Power failure has memory function to keep daily water consumption records
- When maintenance is required, the whole machine can be dismantled but the raw water pipeline able to stay

Stylish and Elegant

Item	PT-1017R 10230	PT-1035R
Contral Valve	BNT-765	
Regeneration type	Downstream Regeneration	
Mode	Time type/Flow immediate type/Flow delay type/Hybrid regeneration	
Tank Size	10x17	10x35
Resin Volume	14	25
Clean wtaer flow	1.2	2.5
Hardness removal	760	1215
Salt Consumption	1344	2400
Water consumption per regeneration	45	112
Size(D*W*H mm)	518x328x678	518x328x1139
Packing Size(D*W*H mm)	538x370x723	538x370x1180
Inlet Water Quality	Tap Water	
Temperature(°C)	5-38	
Water pressure(Mpa)	20-50psi (1.5-3.5kg/cm ²)
