

DESCRIPTION

Operating on 9V alkaline battery

Detecting the leakage to auto shut off water and avoid damage

Detecting low battery to auto shut off water and alarm warning

Specification

Operating Voltage	DC 9V
Port Dimension	G 1/2"
Cable Length for Solenoid Valve	70cm ± 5cm
Cable Length for Water Detector	150cm ± 5cm
Unit Environment Temperature	1°C - 60°C (NOT include battery temperature endurance)
Maximum Pressure Resistance	6 Bar
